

THE POCHE WEEKLY RECORD.
SATURDAY, JULY 13, 1878
LOCAL INTELLIGENCE.

ARIZONA MAIL.—On Friday, the 5th instant, the Arizona mail rider arrived in Pioche and departed on the following day, intending to gather all the mail stock on his way down, this being his last trip to Pioche, the party for whom he worked having failed to get the new contract for carrying the mail. The rider informed us that the parties who had obtained the contract did not want to carry it, but wanted to sell out, but no one desired to buy, it being too cheap, so that there will be no overland mail from Prescott, Arizona, to Pioche for some time. Our Postmaster now sends the mail by way of San Francisco. This will be a severe blow to the settlers in the lower end of this county, who get their mail matter by this route, who will now have to fall back on the old method of sending an Indian here occasionally after it, or get some travelers, as they happen to pass, to ring their letters here.

BANKRUPTCY.—It has been ascertained that instead of the Alps Company owing only about \$40,000 that they in reality owe nearly \$70,000, and out of this vast amount due there will not be any dividend for any one except the holder of the mortgage, the assignee—in case of bankruptcy—and the miners. We understand that the law, after such claims as mortgages are paid, gives to the miners working at the time of failure \$50— if there is enough in the estate to do so. Merchants can now see what their chances are, as bankruptcy is costly and will entail considerable expense, after which comes the mortgage, the assignee's fees, and the amount to miners. If the property brings enough to settle that it will be doing pretty well. A proposition is being circulated by some business men to give the company a release in case the miners are paid in full what is due them.

DAY STOCK.—Last Monday it was circulated around Pioche that a permanent injunction had been granted to prevent the collection of the Day assessment. About 5 o'clock in the afternoon Capt. Day received a telegram from John W. Pew, Secretary of the company, saying that the sale of the Day stock would take place on Tuesday, the 9th, except upon the stock of those who are plaintiffs in the suit. There were two plaintiffs to the suit, and what stock they represented at the commencement of the suit would be all that was exempt. Those who did not pay the assessment, but relied on getting notice after a decision was rendered in the case, will find their stock gone.

DAILY MAIL.—Postmaster Meyers received Saturday a circular stating the contractor on route No. 45124, from Eureka to Pioche, has been instructed, in pursuance of an order from the Postmaster general, to increase the service one trip more per week, and reduce the schedule time 36 hours. The order was to take effect July 1st, and the Postmaster was ordered to report if it was then complied with. In pursuance with this order a stage was started on Sunday morning, the 7th, from Pioche for Eureka. This will be a great convenience to the traveling public, and also to the merchants of Pioche.

ONE FROM THE BACK LEDGE.—The miners who have possession of the Mazepa mine shipped about 15 tons of ore to the Dry Valley mill last Saturday. The attorney for the Alps Company sent a notice to Captain Day, Superintendent of the Raymond & Ely Company, and to Mr. Duff, Superintendent of the Meadow Valley Company, warning them not to work any ore sent to the mills by the parties who hold the Mazepa mine, as the Alps Company claims the ore. We understand that no attention will be paid to this notice and that the ore will be worked.

LEACHING.—The one tank built at Bullionville for the purpose of trying the leaching process on the tailings there having proved a success, four more tanks are about being erected and a large supply of chemicals necessary have been sent for. The dump of the Pioche mine, on Meadow Valley street, has been leased for the purpose of leaching the screenings, the party leasing paying at the rate of fifty cents per ton for the privilege. It is thought that it can be made to pay well.

SQUAW FIGHT.—A fight took place on Main street Wednesday morning between two Indian women, which excited a good deal of interest among the white admirers of the squaws gathered around to witness it. They did not resort to the method of white women: i. e. scratching and pulling hair, but went at it with their fists, punching each other in manly style. They were finally separated by an Indian. The fight was on account of a white man.

RICH ORE.—The ore taken from Tem Pahute to Revelle to be milled yielded from \$204 to \$760 per ton. There were 35 tons of this ore worked. This ore was taken from the Inca mine, owned by Mr. Russell, who was severely burned at Duckwater a few days ago.

FORECLOSURE.—Proceedings for a foreclosure of the mortgage held on the property of the Alps S. M. Company by Jno. R. James were commenced during the week.

LATE RECKONINGS AT POUJADE'S.
Fine Chewing Tobaccos.
Fine Smoking Tobaccos.
Sugar Bags.
Condensed Milk.

APPRECIATE ZE JOKE.—A Frenchman, who had lost his hand and was traveling around town during the past ten days as a corn doctor, became a victim of a practical joke on Saturday last. He had been drinking considerable and was very talkative. He fixed a large sized dry-goods box in the street, at the edge of the sidewalk, took a seat on it, and in this position commenced to batranga the assembled crowd. While he was continuing his oration some person placed a large Chinese bomb under the box and set fire to it. When the explosion took place, it was with such force that the box was splintered in pieces, letting the old man fall to the ground among the debris. After picking himself up, he turned to the crowd and said: "Gentlemen, I appreciate ze joke," and then took his departure.

A MIXED AFFAIR.—A card dated July 3d appeared in the Eureka Sentinel of the 6th, reflecting on the management of the Day mine, signed by Mr. H. H. Garrison. A meeting of the dissatisfied stockholders of the Day S. M. Company was held at the Court-house in Pioche on the 3d of July, over which meeting H. H. Garrison presided. At this meeting a set of resolutions were passed by those present, and endorsed by the Chairman, praising the management of the Day mine, advising every one to pay their assessment, and all would be well. These resolutions were published in the Record of the 6th. The two affairs look to an outsider as if one was trying to carry water on both shoulders and they will bear a strange appearance to the dissatisfied stockholders in San Francisco.

DISTRICT COURT.—The District Court met on Saturday, July 6th, and transacted the following business: C. H. Patchen vs. Alps S. M. Co., F. W. Clute vs. Alps S. M. Co., L. Woldenberg & Co. vs. Alps S. M. Co.; demurrers filed in the above entitled causes withdrawn and it is hereby ordered that defendant have until Monday, July 8th, at 12 o'clock m., in which to file and serve their answers. A. Aguayo; Time for said administrator to file final account and report of sale ordered continued to July 13th. Court adjourned to Wednesday, July 10th. Wednesday—Patchen et al. vs. Alps S. M. Co.; the argument on motion to strike out answers continued to Monday, July 15th. Steele vs. Snodgrass; on trial.

RAYMOND & ELY.—The compressor is all put in place and ready to operate. Every piece of machinery fitted to a nicety, so there is no trouble. The receiver is also placed in position and all that lacks now is for the connection to be made between the compressor and receiver, and for the pipes from the pump shaft to connect with the receiver. Thursday one of the pump engines was being lowered buckets for the pump. The work in the mine continues the same as usual.

SHOT AT A CHIMANAN.—On Sunday morning a shooting affair occurred in a restaurant on Main street. It appears that the cook, a Chinaman, and a young boy by the name of Vincent Buys, who waited on table, got into trouble, when the cook chased him out of the kitchen with a knife and called him a very naughty name, when the young man ran and got a pistol and came back and took a shot at John Chinaman.

PICNIC AT HIGHLAND.—Preparations have been going on the past week by our German citizens to hold a grand picnic at Highland to-morrow. A floor has been laid in a shady place for those that want to enjoy a dance, and other sports, such as sack-racing and target-shooting will be in the programme. A cordial invitation is extended to all that wish to join in a social gathering.

MEADOW VALLEY.—During past week have been running night shifts for the purpose of cleaning out some of the drifts as it was found impossible to do it in the day time, the engine being kept busy all day hoisting screenings. The work of running nights is only temporary. The mill is running steady and doing good work.

HILLSIDE.—The furnace, which was shut down on Friday, the 5th, started up again on Tuesday morning and was running successfully at last accounts. J. F. Hallock started for Bristol Thursday, he being employed to keep the books of this company.

ENJOYING HIMSELF.—During the past week a letter came from Adolph Cohn, dated at Washington City. Adolph had just procured his passport to travel in "foreign countries," and was about to leave for Europe.

STATIONERY.—W. F. Goodman received last Wednesday a large assortment of stationery, consisting of writing paper, pens, ink, pocketbooks, etc., which are for sale at reasonable prices at his store on Main street.

FOR SILVER REEF.—Mr. and Mrs. Mahoney left Pioche on Wednesday for Silver Reef, intending to locate there and open a dry-goods store. We wish them success.

GREAT BARGAINS.—F. W. Clute gives notice under the head of "New To-day" that he is closing out business in Pioche and will dispose of his goods at cost and freight.

ARRIVED.—Mrs. and Miss Minnie Griffin, wife and daughter of W. E. Griffin arrived in Pioche on yesterday's Hamilton stage.

PIOCHE BULLION.—\$8,798.81 in bullion was shipped during the week, according to reports of Superintendents.

UTAH FLOUR. in 500 lbs. lots, cheap for cash, at T. C. Poujade's, Meadow Valley street.

ALMOST A FIRE.—About 10 o'clock on Wednesday evening as two of our citizens were returning from a walk past the County Hospital, their attention was attracted by a blaze which was taking place in the interior of that building. The possibility of its being on fire immediately flashed upon them, and on making a rush for, and bursting open the door, they discovered an Indian just awaking as his bed was being enveloped in flames, while the other inmates (four other Indians) were snoring away in apparently undisturbed tranquility. Were it not for the timely arrival of those parties and the speedy application of a few buckets of water the probability is the building would have been destroyed in a few minutes. One of the parties remarked: "Maybe we will get a donation from the county, for saving the building." He must be a late arrival.

WATER.—The water was turned off from the houses in Pioche on Thursday night on account of there being only a light quantity of water in the lower tank. Some person on Tuesday night climbed over the fence guarding the lower tank and pulled a portion of the oakum from the seams and the water was allowed to waste away for some time before the cause was discovered. Damages were repaired but it will take a little time to fill up the tank again. The reason the water was turned off Thursday evening was to help fill the tank and to keep about 10,000 gallons being used for irrigating gardens during the night time.

CONTEMPT OF COURT.—A young man who had been on a spree for several days Wednesday morning wandered into the District Court room at a time that a case was on trial, being evidently half crazy from liquor. He imagined that a case was being tried in which he was interested, so he called out at the top of his voice for some one to give him a copy of that complaint. Instead of being served with a copy the Sheriff bounced him and locked him up.

DRIVE DOWN THE NAILS.—There is a great complaint about the projecting nails and spikes with which the wooden sidewalks are filled. The dresses of the ladies are daily torn on these nails. Those doing business on Main and Lacer streets ought to have sufficient gallantry to make the sidewalks in front of their establishments passable to ladies as the condition of some of them are a nuisance to promenaders.

UTAH FLOUR. in 500 lbs. lots, cheap for cash, at T. C. Poujade's, Meadow Valley street.

A FIGHT.—A fight took place on Main street last Wednesday morning between a restaurant proprietor and a young man named Thighe, who was \$90 delinquent for board and refused to settle, although he had been paid off by a mining company. The restaurant man made mince meat of his adversary, leaving nothing of him except his toe-nails, but he did not succeed in collecting his board bill.

GRAIN SEPARATOR.—There arrived here last Saturday, destined for Hiko, a threshing and grain separator of the latest improved pattern, made by John J. Case of Racine, Wisconsin. It was wagon mounted and made to suit this country, being made by order of Curtis & Smith, who are sole agents for these threshers and McCormick's reapers.

SUSPENDED.—Jno. W. Musser on Tuesday telegraphed to E. R. Clute at San Francisco that he was relieved from the position of Superintendent of the Alps S. M. Company. Mr. Musser was vested with this power by the Board of Trustees. The position is not a very desirable one at the present time.

DIED.—John M. Bass, a former resident of Pioche, died at Park City, Utah, on the 13th of June, and was buried by the Masonic Fraternity at Salt Lake City. He was formerly a member of St. John Lodge No. 18, F. & A. M., of Pioche. Mr. Bass was a native of Missouri, aged 53 years.

NOTICE TO LIENHOLDERS.—John Chisholm gives notice in to-day's Record that he has filed a lien against the Alps S. M. Company and the Condor mill for work done and performed on the mill. A hearing will be had in said case on the 12th day of August.

FOUND.—On the road between Pioche and Desert Springs, a portmanteau, blankets, a letter addressed to Mr. Henry Blackmore, and other articles. The owner can recover the same by applying to William White, Summit, Iron county, Utah.

UTAH FLOUR. in 500 lbs. lots, cheap for cash, at T. C. Poujade's, Meadow Valley street.

RELIEVED.—Mr. Hall, the agent of the Signal Service Department at Pioche, has received notification that he has been relieved from duty here and superceded by a Mr. Fitzgerald. Mr. Hall is ordered to Washington City.

APPRAISERS.—The Sixth Judicial Court of Nevada has appointed M. Schustrieh, Julius Hoffman and Geo. T. Gorman appraisers of the estate of Chas. A. Wiederhold, deceased.

JACK COHN. well-known in Pioche, we learn from the Eureka Sentinel, is about to go there and open a clothing store with a stock of goods valued at \$50,000.

CHRISTY BULLION.—The Christy Mill & Mining Company shipped from Silver Reef from the 7th to the 10th of July three bars of bullion valued at \$4,129.94.

THE FRESH CHEWING AND SMOKING TOBACCOS direct from Southern factories at Krause's.

A BIG HEAT will be taken of at the Raymond & Ely foundry to-day.

THE DAY MINE.

[From the S. P. Stock Exchange, 6th.]
Argument on motion to dissolve the injunction laid on the Day Silver Mine was heard last evening, in the Fifteenth District Court, by Judge Dwinelle. Messrs. Lake & McKoon appeared for the Trustees and Messrs. Coghlan & McClure for the dissatisfied stockholders. Mr. Lake remarked that the injunction prevented assessments being collected on any of the stock, whilst the dissatisfied stockholders represented only 21,065 out of 100,000 shares. For M. McDonald it was denied that he had failed to account for \$10,000 or any portion thereof; that the mine could be worked at any less cost; that the shaft is sunk to the depth of 300 feet; that McDonald is interested in any contracts made by the directors; that the books kept by Secretary Pew show the full amounts of receipts and disbursements; that McDonald ever caused a second cash book to be written up. It was admitted that \$10,000 was paid to Vaillencourt for the interest of Joshua Emery in the mine by advice of attorneys of defendant. The answer was also signed as an affidavit J. M. McDonald and J. W. Pew. The original cash, letter and record books were admitted in evidence by Mr. Lake.

C. B. Gould, the bookkeeper of the Company, testified that the amount of bullion received in San Francisco and accounted for up to April 8th was \$37,644.77. There had been 3148 1/2 bars of bullion sent east. All Mr. McDonald ever had was \$14,555.82. All the remainder remained in the hands of the Secretary, who converted it into money and paid the Company's debts with it, and it did not go into the hands of the Treasurer. The Superintendent of the mine had used the proceeds of the bullion sent east to pay the expenses of the mine. A sample monthly statement of the Superintendent was read to show how he made his statements out and what the expenses there were. Witness testified that on November 12th shipment had been made to the Day Company of \$22,038.40, but in the course of a month it was shown that \$7,482.58 of this belonged to the Raymond & Ely, and was paid over to that mine. The ore of the two mines had got mixed. This petitioner's counsel claimed, accounted for the \$7,000 discrepancy.

Mr. McKoon argued for the dissolution of the injunction, saying that every allegation of fraud, etc., on the part of Jasper McDonald, as alleged by the petitioners, has "upon information and belief," and upon this they had got the injunction. He held that the law required that an injunction should not be issued upon information and belief, but on the sworn testimony of all parties of the truth of the allegations, and this not having been the case in the present petition, the injunction should be dissolved. Counsel for complainants argued in favor of the continuance of the injunction, holding that the whole proceeding since the purchase of the property show that virtually there is no board of Trustees, the whole management being in the hands of McDonald, who had been invested by the Board of Trustees with the power to contract any debts.

M. J. McDonald testified that he had never seen a bar of the bullion. He had told Mr. Fox that there would be no necessity for an assessment on the stock, but soon after informing him of the fact he received a letter from Captain Day which stated that it would be necessary to levy an assessment. The examination will be resumed at 7:30 this evening.

INJUNCTION.—On Monday there was issued an injunction from the Seventh District Court restraining persons living in the neighborhood of the Lacour street spring taking water therefrom.

It is curious scientific fact that the success of a steam propeller is largely due to the fact that there's a screw loose somewhere.

"True worth, like the rose, will blush at its own sweetness." Good. Could never understand before why our face was so red.—[Oamden Post.]

It is the little olive branch that knocks off the landlord's profits.

Miss Terry has become Mrs. Blanc. One Miss Terry solved.

UTAH FLOUR. in 500 lbs. lots, cheap for cash, at T. C. Poujade's, Meadow Valley street.

Battle Mountain had a \$40,000 fire on the evening of the 6th.
